## Student

Palomar College  
1998 to Present

I am an adult student attending Palomar College to continue studies in Graphic Communications and Web design. I plan to receive a degree and two certificates at the conclusion of the Fall semester in Internet Publishing with Graphic Communication Emphasis.

I am proud to be a member of Phi Theta Kappa, International Honor Society, as well as Alpha Gamma Sigma, the State Honor Society.

## Deputy Director of Administration

Enforcement Support Agency  
1996-1998 full time 1998-2000 part time

*Duties included:* Purchasing, setting up and maintaining computers and applications, maintaining computers, and training users on the use of new equipment. Required strong people skills. Web Master for their web site, as well as graphic artist creating their logos, icons, and buttons.

## International Purchasing/IT Department

Edison Mission Energy  
1993 to 1996: International for-profit energy developer. Subsidiary of Edison International, sister company of Southern California Edison.

*Duties included:* Responsible for evaluating and purchasing all video conference equipment, computer hardware and software for five international and three domestic locations. Responsible for setting up, running, and troubleshooting international video conferences. This included many midnight conferences to accommodate international locations. Worked daily with CEO and all Executive Vice Presidents around the world.

Prior to 1993, I worked for Emulex Corp., Datapoint Corp., and Control Data Corp. as Regional Technical Support repairing and maintaining their respective computers and peripherals. Prior to 1998 I was not involved with graphic design. I worked many years troubleshooting and repairing hardware, as well as teaching software and basic computer usage.

## *HARDWARE*

IBM PC's of all kinds  
Compaq desktops  
IBM ThinkPad laptops  
AMD laptops  
MAC Power Macintosh 7500  
MAC G3

### **Peripherals**

Laser printers  
Inkjet printers  
Dot matrix printers  
High speed line printers  
Most scanners, both parallel and USB  
ZIP drives  
Snappy video capture  
Digital cameras  
Video cameras  
Multiple device switches  
Video Conference equipment

## *SOFTWARE*

Adobe Photoshop5.5  
Adobe Illustrator 8  
Adobe PageMill 3  
Adobe Acrobat 4  
Adobe Premiere 5.1  
Adobe PageMaker 6.5  
Macromedia Director 7  
Macromedia DreamWeaver 2 and 3  
Macromedia Flash 4  
Macromedia Fireworks 3  
File Maker Pro 5  
Basic HTML  
Beginning Javascript  
Netscape  
Explorer  
Lotus Notes  
Lotus 123  
WordPerfect (all versions)  
DOS (all versions)  
Windows (all versions)  
PaintShop Pro 4, 5 and 6  
MGI PhotoSuite  
Kodak Photo Enhancer  
CuteFTP  
WinZip  
AOL

My web pages became too numerous to list here. Please stop by and take a look. I add to them almost daily. Some great Flash examples there too.

### Alien Invitation

This was for a beginner Illustrator 8 project. The assignment was to create a postcard "invitation". The theme our choice. The spaceship and alien images were captured from the movie "Close Encounters of the Third Kind", edited in Photoshop to enhance colors and make alien background transparent, then combined in Illustrator with flowing text.

### My Car

Photographs of my car with various *Alien Skin*, *Eye Candy*, and *Toadies* filters applied with *PhotoShop*

### Palomar College Football-award winner

A group project done at the request of one of the football coaches. I did the majority of the pages involving images, and made all the icons, including the ones to the left. Athletic site for the football team at Palomar College

### Portal to Magic - My Pretty Site

I made this site for myself to practice making rollovers. I created the backgrounds, rollovers, and buttons with *Flash*, *DreamWeaver*, *Fireworks*, and *Photoshop*

### Commercial Web Site

100 page site for law enforcement. I created all the logos, icons, backgrounds with Photoshop, Illustrator, Flash, Fireworks, and DreamWeaver.

### Becky

Site I built for my daughter so she could share her prom and homecoming pictures with her friends

### Illustrator

The candle to the right was the original candle. The others are filtered versions of the original.

Business card I created for myself using *Illustrator*. The "Web Design ..." part is 3 layers of color to achieve the effect.

### All About the Great State of Texas

The first page is one large image map. Roll your mouse across the map and you will see that almost every image on it is a link. I created the Texas logo, and the background in *PhotoShop*, the image map in *DreamWeaver*.
